EXPERIENCE THE DIFFERENCE

# FOR THOSE WHO EMBRACE THEIR PASSION.

FOR MOST OF US, DIVING IS MORE THAN JUST A HOBBY - IT IS A LIFESTYLE. EVERY SUBGEAR TOTAL DIVING SYSTEM (TDS) DELIVERS EVERYTHING YOU NEED TO MAKE EACH DIVE AN ADVENTURE TO REMEMBER - SO YOU CAN SPEND MORE TIME ENJOYING YOUR EXPERIENCE - NOT THINKING ABOUT YOUR GEAR. THIS COLOR-CODED SYSTEM MAKES IT EASY TO FIND QUALITY SUBGEAR EQUIPMENT THAT'S PERFECT FOR YOUR STYLE OF DIVING - WHEREVER THAT MAY TAKE YOU. THIS YEAR, IT TOOK US TO SOUTH AFRICA.

## PREMIUM

For divers who want the best, this gear delivers excellent performance and is suited for a wide range of dive conditions.

## SPORT

Idela for divers who are looking to stretch their equipment budget, this gear offers exceptional value for money.

## TRAVEL

For dive-trekkers, this lightweight and compact gear is built to withstand the rigors of life on the road.

**SUBGEAR** is one of the founders, and sponsors the Dive Trophy competition.

FREEDIVE AIDA GERMANY and the FREEDIVE AIDA GERMANY National Team are partnered with **SUBGEAR**.

**SUBGEAR** supports Freedive AIDA Austria events and competitions, as well as their athletes.

# REGULATORS

## DIVE WITH CONFIDENCE

South Africa is where two oceans converge and the diving ranges from tropical reefs to cold-water kelp forests. Equipped with **SUBGEAR** regulators, we didn't worry about our air supply. **SUBGEAR** regulators offer a choice of first stages - a balanced, dry-chamber diaphragm for optimal cold-water performance and a classic

piston, perfect for tropical diving. Second stages feature adjustable venturis and an innovative valve design for maximum airflow with minimal inhalation resistance. All **SUBGEAR** regulators are backed by a 30-year warranty and a 2-year/100-dive service interval.

## EXPERT TIP

"As we developed the **SG50**, we wanted to create a system that made diving more fun.

I think it is safe to say that we have achieved this. Thanks to the power flow downstream valve we can offer a smooth and natural feeling air flow in a compact system.

The balanced diaphragm 1st stage with a dry chamber guarantees a reliable system suitable for every diving environment. We added the stainless steel casing as an exceptional product deserves a beautiful finish."

*Corrado Cominetti,*  
Research & Development Manager,  
SUBGEAR

- 30-YEAR WARRANTY FOR FIRST OWNER
- FREE SERVICE KITS FOR 4 YEARS
- SERVICE INTERVAL 2 YEARS/100 DIVES

"Over the 18 dives the SG50 performed flawlessly whether I was pootling around in the shallows or reef-hooked in against a two-knot current. It didn't free-flow at the surface once and every breath was completely dry."

*Charles Hood, editor, SCUBA, issue 33, August 2014, UK*

## FEATURES

Summary

### SG50

TDS PREMIUM

High-performance for all situations.

### SG30

TDS SPORT

Reliable and lightweight regulator.

### SG10

## EXPERT TIP

"The regulator line offers a high performance system with a modern design at an unbeatable price.

The applied technology ensures natural effortless breathing - whether diving in tropical or in ice cold waters.

Our technicians have no doubt that the new SG range sets a new standard in SUBGEAR regulator technology."

**Georg Fraunhofer,**  
Technical Manager, SUBGEAR

## RECOMMENDED ACCESSORIES

OUR HANDY EXTRAS PROVIDE EVEN MORE VERSATILITY UNDERWATER

### OCTOPUS

SG10 in Octopus version  
Yellow, 100cm hose

### SEACURE X-TYP

Moldable mouthpiece, clear or black  
With extremely large air passage

### RELAX 30 + 35

Orthodontically shaped wing  
With perforated retainer

### REG PROTECTORS

Hose protector: made for all standard hoses  
DIN dust cap: keeps first stage clean

### YOKE ADAPTER

INT/DIN adapter, maximum 280bar  
Adapts to all first stages

### OCTOPUS HOLDER

Ball system or retainer with velcro  
Octopus Holder Pro: magnetic retainer

# INSTRUMENTS

RELIABLE DATA EQUALS PEACE OF MIND

The eastern coral reefs and frigid seas of the Cape provided countless opportunities for underwater exploration, and SUBGEAR instruments allowed us to safely monitor our journeys to the depths. Some SUBGEAR dive computers come with Predictive Multi-Gas (PMG) and Profile Dependent Intermediate Stops (PDIS) algorithms for advanced decompression calculations.

Choose a model with integrated pressure or scuba, apnea and gauge modes. SUBGEAR's analog air pressure and depth instruments make excellent primary or backup gauges, and don't forget a SUBGEAR compass.

EXPERT TIP

“As underwater photographer I am focussing myself on my subject and my work at 100%.

I don’t have much time to check my panel and computer all the time. That’s why the dive computer XP-3G with integrated pressure gauge is my solid partner which delivers all the needed information to me at one look.

A computer with a clear and an easy readable display, spiked with all the technic you need for your adventures in the depths of the oceans.”

David Benz,  
underwater model photographer, marine life photographer, editor, art and water

- BUY AND SAVE!
- WHEN YOU BUY A XP-COMPUTER, YOU’LL RECEIVE 2 COUPONS, EACH FOR ONE COMPUTER BATTERY
- ENOUGH POWER FOR UP TO 500 HOURS OF DIVING

unterwasser chose our XP-3G!  
"Cost-performance ratio winner in the computer test unterwasser magazine."  
*unterwasser, computer test, issue September 2014, Germany*

"Hats off to those SUBGEAR guys – their clever and versatile dive instrument XP-3G did indeed tick all my boxes."  
*Nigel Wade, editor, Diver magazine, issue September 2014, UK*

# ANALOG INSTRUMENTS

THE RIGHT INSTRUMENT TO SUIT YOUR DIVE STYLE

## ANALOG CONSOLE 3

Scale: 400bar for 200 & 300bar tanks  
Spiral mechanism  
Precision depth gauge to 60m/200ft  
Maximum depth indicator  
With swivel and high pressure hose  
High visibility dial  
With integrated compass

## ANALOG CONSOLE 2

Scale: 400bar for 200 & 300bar tanks  
Spiral mechanism  
Precision depth gauge to 60m/200ft  
Maximum depth indicator  
With swivel and high pressure hose  
High visibility dial  
Ergonomic, compact design

## PRESSURE GAUGE

Scale: 400bar for 200 & 300bar tanks  
Spiral mechanism  
With swivel and high pressure hose  
High visibility dial  
Super compact design  
Swiss design  
Safe and reliable measuring instrument

## COMPASS FS 1.5

Sturdy, accurate instrument  
Precise underwater navigation  
Convenient lateral bearing window  
Very easy to read  
Oil-filled, pressure-resistant housing  
Face in 10-degree increments  
Available for wrist or as clip

# BCDs

## EXPLORE IN COMFORT

Along the Aliwal Shoal ragged-tooth sharks, dolphins and mantas competed for our attention. We enjoyed all these creature encounters in comfort and control wearing our **SUBGEAR** BCs.

Whether you prefer the freedom of hybrid buoyancy or the security of an adjustable wrap-around, SUBGEAR BCs deliver the comfort and stability you need to explore the depths.

Built strong, they feature weight integration and multiple adjustments for that perfect fit. Three dump valves and an efficient inflator system make buoyancy control oh-so-easy.

## EXPERT TIP

"The **Vapor BC** is a robust companion for all cases: Because of its good adjustability you can use it both for wetsuit diving and for drysuit diving.

The additional counter weight pockets are very comfortable, so you can arrange the weights properly."

**Nina Zschiesche,**  
travel journalist

**SportDiver chose our Black Pure!**

"Pure Black: We like...Looks, build quality, performance, comfort."

**SportDiver Choice in Gear Guide, issue September 2014, SportDiver, UK**

"The **Black Drake** is a BC for everyone with a fit that feels individual. Combined with the impressive lift, economical price and the double function as a travel/all-rounder jacket, the Black Drake is an absolute hit."

**Alexander Krützfeldt, editor, tauchen magazine, issue 6/2013, Germany**

## FEATURES

Summary

### VAPOR

TDS PREMIUM

Streamlined shape for extra high mobility, diving comfort and safety. Great lift through hybrid construction.

### BLAC JAC

TDS PREMIUM

This beloved BCD has been continually upgraded over the last years, for maximum use of scuba technology and comfort.

### BLACK PURE

TDS SPORT

With a winning compact shape without compromising safety. Perfect deal for all-uses including travelling.

Comfortable and great fit

# DIVE WEAR

## FOR ANY WATER EXPEDITION

A mecca for all watersports enthusiasts, coastal water temperatures vary greatly so we packed a selection of **SUBGEAR** suits. Only **SUBGEAR** steamers feature the Body Map System to reduce stress and increase comfort and flexibility.

**SUBGEAR** steamers are made from **X-FOAM**, which is a neoprene blend that meets Polycyclic Aromatic Hydrocarbon (PAH). Drysuits, semi-dry or wetsuits, shorties and rash guards, **SUBGEAR** dive wear combine functionality with style so you can be warm and protected while looking your best, above and below the surface.

GO BIG

## UV STANDARD 801

The harmful UV rays from the sun have no chance with SUBGEAR rash guards. The rash guards are made out of technically advanced materials and tested to EU UV-Standard 801. This new European UV-Standard was introduced as the earlier Australian SPF50+ standard was considered inadequate. The new procedure involves testing not only the new product but also the material under real life conditions such as when wet, stretched and used.

## RASH GUARDS

Ultra UV Protection rating SPF 80  
Breathable high-tech hollow fiber  
Extremely water resistant, quick-drying  
Stylish men's and women's designs  
Men's: S-2XL/Women's: XS-L

## X-FOAM

All SUBGEAR steamers are made of **X-FOAM** neoprene. **X-FOAM** is the only formula which complies to very strict P.A.H. test requirements. Polycyclic Aromatic Hydrocarbons can be toxic in certain compounds. We are very proud to be able to offer neoprene blends that protect divers.

## BMS

The **Body Map System** is unique and only available on SUBGEAR steamers!

**BMS** is a special cut and uses innovative materials in order to cater to the different needs and stresses of the human body.

## ZIPPERS

All our long zippers are diagonal to reduce seam stress points and make it easier to close on your own.

### X-FOAM

## DEFINITION IR7 TDS PREMIUM

Great design, very comfortable, ideal for temperate and cold waters.

### X-FOAM

## DEFINITION IR5 TDS SPORT

Premium looks, combined with rugged comfort, for warm and temperate waters.

### X-FOAM

## DEFINITION 3 TDS TRAVEL

Fresh style, absolutely comfortable, perfect for tropical and warm waters.

# DRYSUITS

## EXPERT TIP

“The idea behind the Exo Dry was to develop a universal all-year dry diving suit. The 4mm neoprene **Exo Dry** can be used for warm water diving and excellent insulation is provided with an undersuit underneath. As the material is thin, it is easy to pack for travelling. The flexible stretchy material fits close to the body, preventing any excessive air. For those who are new to drysuit diving, these features help enormously with the transition.”

**Niklas Stoss,**  
Product Manager, SUBGEAR

## EXO DRY PRODUCT DETAILS

- SI TECH VALVE**
- Balanced, rotating inlet and exhaust valve for ease of use
  - SI TECH for high quality

- LATEX SEALS**
- Guarantor for best fitting and durability

- I-GRIP**
- Secures the instruments and holds them in place

- KNEEPADS**
- Tough material
  - Prevents abrasion and is therefore more durable

- BOOTS**
- Attached booties with a solid and durable sole
  - Fin strap anchor

## FEATURES

Summary

Material	4mm soft neoprene
Dry zipper	Back TiZip dry zipper
Arm and neck seals	Heavy-duty latex seals, with Warmneck
Pockets	Leg pocket with velcro
Feet	Attached boots with solid sole
Configuration	Suspenders
Special features	Sturdy kneepads, I-Grip on both arms
Included	Bag, inflator hose, hood
Sizes (men/women)	48-58/S-3XL, 38-44/S-XL

## EXO DRY

TDS PREMIUM

Very comfortable and good insulation even on deeper dives. With SI TECH valves.

## EXTENDER PRODUCT DETAILS

### SI TECH VALVE

- Balanced, rotating inlet and exhaust valve for ease of use
- SI TECH for high quality

### LATEX SEALS

- Guarantor for best fitting and durability

### SIDE POCKETS

- Large velcro pockets for easy access
- D-Rings inside to fix items

### I-GRIP

- Seacures the instruments and holds them in place

### TELESCOPE SYSTEM

- Suspenders and an adjustable torso system for flexible and perfect fitting

## EXTENDER

TDS PREMIUM

High quality and extremely robust with low weight and quick-drying. With SI TECH valves.

Neoprene seal, thumb/foot loop

Unisex: S-XXXL

## HIKER DIVE BOOT

For neoprene socks and dry suits

Solid and sturdy

Resistant grip sole, 38-49

## EASY DRY PRO

Vulcanized latex for dry diving

Textured surface, with interior glove

Extreme elasticity, S-2XL

## SI TECH SYSTEM

Ring glove system by SI TECH

Easy to use, can be detached at any time

Bayonet lock for all latex seals, M-XL

## SUB SOX

Drysuit undersock in 3 layers

Inner fleece for warmth and comfort

100g hollow fibre insulation, S/M + L/XL

# ESSENTIALS

## TOOLS OF DISCOVERY

Each year, millions of silvery sardines migrate through South African waters, creating a shimmering mass of life 10 miles long, a mile wide and over 100 feet deep and with our SUBGEAR masks and fins we witnessed the entire show.

SUBGEAR masks feature ultra-clear lenses and hypoallergenic silicone skirts for comfort and durability. Dry tops, splashguards and purge valves keep snorkels dry and breathing easy. Fins are built with excellent flex for that extra burst of power with every kick.

TOP CHOICE

## DEVIL UCL

TDS PREMIUM

Frameless mask made of super soft silicone  
Extreme field of vision, very low volume  
Opaque silicone prevents light reflections

UCL

## GHOST/SPRITE TDS PREMIUM

Frameless single lens low volume mask  
Superb field of vision, extra soft silicone  
Sprite: smaller version, in black + white

TOP CHOICE

**SportDiver**  
BEST VALUE

SportDiver chose our Vibe2!  
"Vibe2: We like...Comfort, performance, price."  
*SportDiver Best Value in Gear Guide, issue February 2014, SportDiver, UK*

## VIBE UCL

TDS SPORT

Modern mask with an extremely large window  
Great field of vision, also upwards  
Liquid silicone for perfect fit

## VIBE 2 UCL

TDS SPORT

30% larger field of vision including upwards  
Modern design in outstanding colours  
Universal fit thanks to liquid silicone

## GOPRO® MASK MOUNT

Secure mounting for GoPro® camera  
Universal fit for most double lens masks  
Lightweight and easy to attach

## MASK STRAPS

Neoprene straps with velcro for fastening  
Protects against pressure and entangled hair  
Can be used with all standard masks

## ULTRA CLEAR LENSES UCL

Innovative ultra clear lenses from SUBGEAR enhance the light availability and show truer colours under water. All SUBGEAR masks have ultra clear lenses except for the Steel, Pro Ear 2000, Spider Combo and Pantai Set.

## ECCO UCL

TDS TRAVEL

Perfect for snorkeling

Two lens mask with universal fit

Timeless design and great value

## OPTICAL LENSES

For those who wear glasses, the Zoom mask is the right choice. The optical lenses fit in to the left and right side. Diopters: -1.5 - -8.0 and +1.5 - + 4.0.

## OPTX 20/20 LENSES

Makes it easy for you to read your underwater gauges – just add water and stick on the magnifying lenses. Diopters: +1.25 - +3.0.

## VISTA UCL

TDS SPORT

Classic shape in many modern colours

Very large field of vision

Low internal volume, liquid silicone

## ZOOM UCL

TDS TRAVEL

Comfortable mask with very little blind space

Very low internal volume

Incredibly comfortable, available optical lenses

## PRO EAR 2000

For divers with sensitive ears

Keeps ears dry whilst allowing equalisation

Universal fit and seals superbly

## QR MASK STRAP

Use our EZ central quick-release strap on several masks: Easier to adjust than a standard mask strap, even with one hand.

## FOR YOUR HEALTH

We use only non-toxic hypoallergenic high grade silicone for our snorkels.

### DRY TOP

When the snorkel is above the water, the patented float system keeps the airway open, allowing normal breathing. When the snorkel is submerged, the patented float system raises, sealing the airway and preventing water from entering making it truly 100% dry.

### FUSION DRY TDS PREMIUM

Dry snorkel with innovative dry top  
Water drain valve and QR buckle  
Replaceable anatomical mouthpiece

### FUSION PRO TDS SPORT

Drop-away construction in flexible silicone  
Splash guard top, water drain valve, QR buckle  
Replaceable anatomical mouthpiece

### FUSION TDS TRAVEL

With splash guard, pre-shaped foldable tube  
Comfortable exhaust valve  
Anatomically curved mouthpiece

### SWIFT

Pre-formed oval tube with flexible bend  
Replaceable curved mouthpiece  
Self-drain valve, QR buckle

### FUN 2

Uncomplicated standard snorkel  
Easy to use, very durable  
Great value

### VENT 2

Semi-dry top keeps water out  
Comfortable exhaust valve  
Silicone mouthpiece

### PANTAI SET

Mask and Vent 2 snorkel set  
Perfect in combination with the Fluida 2 fin  
In a handy mesh bag

## SPRING STRAPS

We recommend our sturdy steel spring straps. Just pull on the loop and the fin is on or off. A comfortable and close fit underwater is guaranteed. Once you've tried it you can't live without them! Available with or without quickdisconnect.

## SPLIT FIN XP TDS PREMIUM

Excellent thrust with less effort  
Power plate for optimum energy transfer  
Including spring straps, XS-XL

## WAKE TDS SPORT

Excellent thrust, perfect for travelling  
Very comfortable foot pocket, only 1.9kg  
Top value for your money, S-XL

## TRAVEL MAX TDS TRAVEL

Ultimate fit thanks to the silicone strap  
Comfortable and efficient, only 0.9kg  
Barefoot fin, or with neoprene socks, S-XL

## WINGS

Split fin natures' wing design  
Excellent thrust with less effort  
Only 1.17kg, 37-46

## FLUIDA 2

Effective streamlined shape  
Impressive thrust, only 0.8kg  
Incredibly comfortable, XS-XL

## SNORKEL PLUS

Short, wide blade with channels and vents  
Good maneuverability and control  
For booties or barefoot, 36-45

# FREEDIVING

DIVE DEEP WITH JUST ONE BREATH

No noise. Just the deep blue and the calm of the ocean. Freediving is captivating divers all over the world. Man and nature have never been so close.

Do you want to experience the fascination of freediving?  
**SUBGEAR** has the full apnea diving product range – developed in partnership with some of the best freedivers in the world. William Winram for example used our carbon S1 fins for his last world record setting dive of 94m. Whether a beginner or a pro, **SUBGEAR** has the right equipment for every level.

## APNEA HOOD

4/5mm outer smoothskin neoprene

Super flexible and comfortable

Bib and seal to fit the Apnea1

## APNEA VEST

Super flexible 4mm stretch neoprene

Smoothskin material in the hood

Complements the Apnea1 steamer

## FEATURES

### Summary

Suit type	Freediving	Freediving

Thickness	5/4mm soft neoprene	5/4mm soft neoprene
Zippers	-	Back
Fit/comfort	Excellent, like a second skin	Close to the body, like a second skin
Special features	Super stretchy, yet maintains durability	Super stretchy, yet maintains durability
Sizes (men/women)	S-2XL, MT+LT/2XS-L, MT+LT	S-2XL, MT+LT/2XS-L, MT+LT

## APNEA2

X-FOAM

Traditional freediving model with pants and hooded top with velcro beaver tail closure and no zippers for minimised water entry.

## APNEA1

X-FOAM

One piece steamer for moderate waters and pool training; new outer texture material. Easy breathing, easy donning and doffing.

Carbon fins made in cooperation with Trygons.

An entire line of Carbon Apnea fins developed and tested in partnership with **TRYGONS**, renowned for progressive design, materials and manufacturing methods, and well associated with world

record setting free divers. Carbon blades provide the highest performance in free diving fins. We use the highest quality carbon available, similar to that used in Formula 1 cars. Our foot pocket, blade and guide rail are constructed separately initiating numerous advantages to the carbon fin concept. The hydrodynamic, optimised foot pocket is not only ultra-soft and comfortable, but also lessens

drag. Equipped with replaceable, rigid straps for the best possible power transmission between foot and blade. The unique lowprofile guide rail promotes perfect water channeling and because of its softness, doesn't impede on the carbon blades high performance characteristics. Thanks to the soft rails and construction technique 100% of the fin's power comes from the actual high performing blades.

## EXPERT TIP

"What I discovered to be the distinctive feature of the S1 Fins was the very apparent lack of effort required, they were so light on my feet I had to check they were still there more than once, this is a great feature for a freediving fin, the embodiment of maximum propulsion for minimum effort."

**Mike Wells,**  
freediving record-holder and  
Freediving Training Director RAID

## FEATURES

Summary

Footpocket	Hydrodynamic, ultra soft, lessens drag	Hydrodynamic, ultra soft, lessens drag	Hydrodynamic, ultra soft, lessens drag
Performance	Very powerful with practically no effort	Super powerful with practically no effort	Super powerful with practically no effort
Blade material	Carbon and fibreglass	99% carbon	Carbon and fibreglass
Stiffness	High performing blades with soft rails	High performing blades with soft rails	High performing blades with soft rails
Weight in size M	Only 1.6kg weight	Only 1.3kg weight per pair	Only 1.3kg weight per pair
Special features	High performance mono fin	Ultimate power transmission	Perfect power transmission
Sizes	2XS-2XL (34/36-46/48)	2XS-2XL (34/36-46/48)	2XS-2XL (34/36-46/48)

### M1 MONO

Exceptionally powerful with a comfortable foot pocket, alleviating cramps during long training sessions.

### S1 PRO STEREO

A super powerful apnea fin made with a 99% carbon blade for exceptional power recovery and unparalleled performance.

### S2 ECO STEREO

A high performance carbon and fibreglass fin, for maximum power at a value oriented price.

The innovative **Steel Comp** is the ultimate freediving mask. The unique frameless double-lens design concept allows the

mask to compress as the water pressure increases.

The breakthrough **Steel Comp** has the lowest possible internal volume therefore equalising is only necessary later than usual. In addition, the increasing water pressure compresses the mask so equalisation is less frequently required. As the water pressure increases, the bridge between the lenses bends slightly and gradually squeezes the mask tighter to the face.

## STEEL COMP UCL

- Lowest possible volume double lens
- Scratch resistant ultra clear lenses
- Soft skirt for universal fit
- Sleek appearance, pivoting buckles

## STEEL PRO UCL

- Unique super low volume, ultra clear lenses
- Frameless single lens freediving mask
- Equalising is needed less frequently
- Can also be used for scuba diving

The only noticeable indication of this is a short change in vision as the eyes need a split second to adjust. To freedivers this is the biggest advantage over round glass masks as the vision is always distorted with round mask glasses but with the **Steel Comp** the eyes are able to adjust offering freedivers normal vision. However, it is not recommended that the mask is used for scuba diving as wearing the mask for long periods can lead to a feeling of numbness.

## STEEL

- Very small volume
- Universal fit, suitable for small faces
- For freedivers and scuba divers
- Also available with mirrored lenses

## EXPERT TIP

"When taking photos and videos it is always very important to me to have both hands free. With the new freediving **Steel Comp** mask from SUBGEAR I can just attach the nose clip to the mask and dive down to 25m depth without a need to equalise the mask. Due to the flexibility of the mask the need to equalise is hardly there."

**Benjamin Bartoli**,  
underwater photographer & Board Member  
Freedive AIDA Germany

## NOSE CLIP

Aluminium nose clip

Indispensable for professional apnea divers

Super light weight

## APNEA BELTS

Black rubber material

Extremely stretchable

With Marseille or standard buckle

## APNEA

Extremely soft, flexible material

Soft silicone, non toxic

Fits into a BCD pocket when folded

## GOPRO® MASK MOUNT

Secure mounting for GoPro® camera

Universal fit for most double lens masks

Lightweight and easy to attach

## STREAM PRO

Comfortable entry level freediving fin

Medium stiff blade

All-round efficiency

## M1 MONO BAG

High quality and sturdy

Durable TPE tarpaulin

Shoulder straps for comfortable transport

## S1/S2 STEREO BAG

Durable TPE tarpaulin

Protective neoprene padded base

Padded back pack for extra comfort

## SURFACE BUOY

Made of nylon, 85cm length

5 D-rings, 3 handles

With dive flag

## APNEA SURFACE BUOY

For safe training and recreational diving

Durable 840 D Nylon, D-rings, handles

Allows storage of accessories inside

## WR-MULTI BAG

2.5kg, 90 x 40 x 40cm, 144l

Durable TPE tarpaulin

Back pack straps and water drain plug

# SeaLife®

## FANTASTIC COLOURFUL UNDERWATER PICTURES

What is more beautiful than to capture your dives on camera and have a copy forever? Give friends and family a glimpse into the underwater world and re-live your dives at home on your computer. Don't just enjoy the spectacular experiences while on holiday, bring them home! Wherever you travel, the **Micro HD**, the **DC1400** and the optional accessories will not only be loyal companions, but also create a lot of fun!

The **SeaLife** product line has established its place in the market as the first choice for divers and snorkelers who want high-quality underwater shots, but without the high costs that accompany it.

16GB  
or  
32GB

DC1400 HD without waterproof cover.

# SeaLife®

## FEATURES

### Summary

Image sensor	14-Megapixel CCD	13-Megapixel CMOS
Video	HD video: full 720p/30fps	FULL HD video: 1080p/30fps or 720p/60 fps
File formats	JPEG, AVI	JPEG, MPEG4 h.264 (.mp4)
Focus Type	Super makro auto focus: 2.5cm to ∞	Instant fixed-focus lens: 30cm to ∞
Extern Lens	26mm Wide Angle Lens	140° Fisheye Lens
Zoom	5x optical + 5x digital	-
LCD Monitor	3.0" full colour TFT LCD	2.4" full colour TFT LCD
Operation	Comfortable via Piano Keys	Easy and comfortable via large Piano Keys
Waterproof	60m	60m
Expandable	Sealife Accessories	1 or 2 Sea Dragon lights, close-up lens
Wifi	-	In 32GB version
Image stabilisation	Yes	-
Special Modes	Spy mode, easy set-up mode, and 6 underwater colour modes	Easy set-up mode and 5 special modes

## DC1400 HD

Capture unique experiences forever, with brilliant photos, and get the best out of your photos with 6 underwater modes.

## MICRO HD

The first camera which is permanently sealed and absolutely flood-proof. Easy to use, with nothing to maintain!

## DC1400 HD

Five widespread Piano Key controls, a large shutter buttons, and a fingertip control lever that allows scrolling through menus and zooming without releasing your grip from the camera, all make the DC1400 HD incredibly easy to use underwater.

## EXPERT TIP

"The DC1400 is the ideal camera for divers who want simplicity. The underwater mode for blue or green water make it easy to take great photos without having to configure extra settings. For divers who want to develop their skills, the additional options like the wide angle lens, external flashes and lights offer new challenges. All in all, one can really say that in this category the DC1400 has the best price-performance ratio!"

**Phil Simha,**  
international underwater photographer, editor

## MICRO HD

Capture the tranquil beauty of the undersea world with the first permanently sealed, flood-proof underwater camera. The Micro HD has no doors, O-rings or maintenance and it never leaks. Small and ergonomic, the camera is easy to handle, operating with three wide Piano Key controls.

## EXPERT TIP

"Developing the world's first permanently sealed camera falls perfectly in line with SeaLife's overall mission - to make underwater photography enjoyable and user-friendly. The new Micro HD camera delivers that experience while providing sharp, colourful underwater images and HD video in a compact, ergonomic package."

**Sven Harms,**  
Vice President, SeaLife

The key to sharp and colourful underwater pictures or videos is the right light. The lightning Sea Dragon system represents a new generation of lights that can be assembled in seconds and mounted on almost every camera. The ultimate add-on, for GoPro and SeaLife cameras!

The optional accessories for "the Sea Dragon system" are interchangeable. They can be supplemented, changed and extended easily. The **flex-connect™** click system allows quick and fool proof adjustments for all cameras eg. the extension of the flash or ultra-compact light combinations.

Flash diffuser prevents hotspots

## EXPERT TIP

"In photography and videography the lighting is just as important as the camera itself. The Sea Dragon set with flash and video light, reveals the magic of the underwater world in the most magnificent colours. Offering high performance the set is still compact enough so that divers can still have their full freedom and flexibility."

**Kurt Amsler,**  
international underwater photographer, editor  
and conservationist

## REAL LUMEN

All lights are measured in an Ulbricht sphere and therefore guarantee real lumens.

## SEA DRAGON 2000

6x CREE XML LEDs, 100-degree beam angle  
60min. constant burn time at full power  
Three brightness levels 100%, 50%, 25%

### Features:

For a constant, ultra-bright source of light for photos and videos - or just to brighten your dive - the compact Sea Dragon 2000 Photo/Video/Dive Light uses the latest in LED technology and packs 2000 true lumens of brightness.

Featuring a wide, 100-degree beam angle, the light operates with only a single button and quickly adjusts between 3-power levels. The **Sea Dragon 2000** burns for a full hour at 100% power with constant brightness. Depths tested up to 60m. Includes standard tray, grip and compact case.

## SEA DRAGON 1200

6x CREE XPG LEDs, 100-degree beam angle  
85min. constant burn time at full power  
Three brightness levels 100%, 50%, 25%

### Features:

Featuring 1200 lumens and a 85 minute burn time at full power, the Sea Dragon 1200 Photo/Video/Dive Light comes in a micro sized package.

With its included grip, Micro-Tray and adapter for GoPro® cameras, it's the perfect setup for providing light and stability to ultracompact and full-sized cameras. Waterproof up to 60m. Includes compact case.

## SEA DRAGON FLASH

Universal digital flash for vibrant colours  
Adjusts flash brightness automatically  
Powered by 4 AA batteries for 150 flashes

### Features:

Reducing backscatter and producing rich, deep colours in underwater photos, the Sea Dragon Flash is compatible with all SeaLife models as well as other brands of underwater cameras.

Variable power adjustment and large controls make it easy to fine-tune brightness, while leaving the flash in Auto Mode automatically adjusts brightness for optimal exposure. The flash has a quick release button to detach the head for aiming in hard to reach areas and includes a snap-on diffuser, standard tray, grip and compact case.

## MAXX DUO SET

DC1400 set for flawless images & videos  
 Sea Dragon flash, Sea Dragon 2000  
 Lithium Ion battery, AC Power Adapter  
 Comfort Grips, Dual Tray, MAXX case  
 Fisheye Lens, 2 Flex Arms, 16 GB SDHC  
 Flash Link, O-ring lube for flash/light  
 O-rings & removal tool, Moisture Muncher

## PRO DUO SET

DC1400 set for the perfect adventure  
 Sea Dragon flash, Sea Dragon 2000  
 Lithium Ion battery, AC Power Adapter  
 Comfort Grips, Dual Tray, soft case  
 Flash Link, O-ring lube for flash/light  
 Spare O-rings, O-ring removal tool

## PRO SET

DC1400 set for optimum exposure  
 Sea Dragon Digital UW flash  
 Comfort Grip, Micro Tray  
 Flash Link optical cable, lube for flash  
 Spare O-rings, O-ring removal tool  
 In a convenient travel case

## SEA DRAGON MINI 600

CREE XML LED, real 600 lumens  
 75-degree wide beam angle  
 60min. burn time at full power

## REEF EDITION

DC1400 set for great panoramas  
 Fisheye Wide Angle Lens  
 Expandable with additional accessories

# flex-connect™

**flex-connect** is a new group of SeaLife accessories. The trays, mounts and flex arms allow you to easily expand your camera set. Modular for travel and they quickly and easily lock into place. To assemble and disassemble just in seconds. For more information take a look at: [www.sealife-cameras.com](http://www.sealife-cameras.com).

## FLEX ARM

Extends Sea Dragon lights and flash  
With 100-degree of silent bending motion

## HANDLE

Use Sea Dragon light as handheld dive light  
Also for GoPro® with GoPro® Adapter

## MICRO TRAY

For one light or flash  
Provides an incredible compact setup

## COLD SHOE

For ultra compact setups with lights/GoPro®  
Clicks easily into place underwater/topside

## DUAL TRAY

For two lights or light and flash  
Provides a convenient compact setup

## ARM CONNECTOR

Conversion for SeaLife Digital Pro Flash  
And Photo-Video Light

## BALL JOINT ADAPTER

Connect Sea Dragon lights and flex-connect  
To any underwater camera using ballpoints

## YS ADAPTER

For any underwater light/flash with YS mount  
Combine all flex-connect accessories

# SeaLife® ACCESSORIES

PERSONALISE YOUR SEALIFE CAMERA WITH THESE ORIGINAL SEALIFE ADD-ONS

## AQUA POD MINI

Extends from 39 to 96cm

Lighter and shorter than Aqua Pod

Fits to all cameras with standard tripod mount

## AQUA POD

Extends from 46 to 135cm

Light weight, aluminium and steel, just 250g

Close-ups while maintaining safe-distance

## RED FIRE FILTER

Uses special formulated wavelength

Prevents scaring of sea creatures

## 10X CLOSE UP LENS

For Micro HD Sealife Camera

Easily attaches/removes underwater

## FLOAT STRAP/WEIGHT

Floats camera on surface/also for wrist

Weight reduces positive buoyancy of camera

## GOPRO® ADAPTER

Mount a GoPro® to flex-connect accessories

Ideal directly above your DC1400

## FISHEYE LENS

Enlarges the field of view by 80%

Snaps on and off easily even underwater

## MOISTURE MUNCHER

Keeps camera from fogging up

Best corrosion protection

# KIDS

## JOY OF ADVENTURE

The entire dive trip confirmed the importance of maintaining the awesomeness of the vast coasts and waters we experienced. And that's where kids come in: learning to dive, sharing those values together and passing it on.

Our little ones' well-being has always been near and dear to our hearts. We have been the market leader in children's dive equipment for many years and offer a specially developed, complete product line.

It goes without saying that all the equipment is manufactured according to the highest quality standards and meets all legal requirements.

All products are guaranteed to be non-toxic and phalate-free! All children's steamers are made with X-FOAM.

**X-FOAM**

## REBEL VEST 5MM

To combine with Rebel steamers

5mm with attached hood

Exceptional protection in colder water

**X-FOAM**

## REBEL 6MM

Kids steamer offering thicker thermal protection where it's most needed and flexibility where mobility is key.

**X-FOAM**

## REBEL 3MM

Kids steamer for warm water with a modern design and super soft neoprene for great mobility.

**X-FOAM**

## REBEL SHORTY 2.5MM

Kids shorty in a cool and modern design. With green design elements for an extra stylish look. Ideal for warm water.

## FEATURES

Summary

Materials and thickness	6mm X-Foam neoprene material	3mm X-Foam neoprene material	2.5mm X-Foam neoprene material
Comfort	Plush interior to keep small bodies warm	Soft neoprene for optimal flexibility	Soft neoprene for optimal flexibility
Zippers	Extra long wrist and ankle zippers	Extra long ankle zippers for easy on/off	Back zipper
Extras	Reinforced knee pad with anti abrasion	Reinforced knee pad with anti abrasion	Good sealing at neck, arms and legs
Special features	Apple green logos & panels for a stylish look	Apple green logos & panels for a stylish look	Sophisticated cut for a great fit
Sizes	128-164cm, S-XL	128-152cm, S-L	104-164cm, 2XS-XL

## REBEL JACKET

Size-adjustable 128cm to 164cm: The BCD grows with the child thanks to its double-buckle system and second waiststrap.

Front adjustable system - kids & juniors

Integrated drop-weight pockets

420 D Nylon material

Standard inflator, quick stop right rear

Padded back pack & cummerbund

Adjustable chest strap for best fit

3 hard plastic D-rings

Size adjustable with double-buckle system

Buoyancy S/M 90 Newton

Only 2.05kg in size S

## SG10 KIDS

Same characteristics as the SG10

Extra short hose

Children's mouthpiece

## REBEL HOOD

5mm wrap around hood with velcro

Tucks neatly inside suit neckline

Super stretch & plush neoprene for comfort

## KIDS GLOVE

3mm, plush insulation, super stretchy

Easy to open for kids

Anti slip palm, S-M

## SUPER SOXX

3mm, children's bootie with solid sole

Velcro-adjustable instep

Solid sole, 27-34

## SEAHORSE SHORTY

Thermal and UV Protection SPF 80

Soft 3mm shorties with spandex panels

Ideal for the beach and warm waters

## RASH GUARDS

Thermal and UV Protection SPF 80

Breathable, quick-drying

Available as rash guard shirts and shorts

### MINI VU UCL

Suitable for kids and juniors

Optimum angle of vision

Very good fit due to liquid silicone

### CHILD 2 UCL

Tailored for smaller faces

Very low volume

Maximum visibility

### SPIDER COMBO

Mask and snorkel set sized for kids

Soft silicone, with drain valve

Packed in a mesh bag

### MINI DRY

Dry snorkel for kids

Designed to keep water out

Small tube volume with exhaust valve

### CHILD 2 SNORKEL

Uncomplicated standard snorkel

Easy to use, durable, great value

Soft silicone

### SNORKEL PLUS

Short, wide blade with channels and vents

Good maneuverability and control

For booties or barefoot, 28-34/S-XL

### FLUIDA 2

Effektive streamlined shape

Good thrust

Incredibly comfortable, 34-37/3XS-2XS

# ACCESSORIES

## THE RIGHT TOOL FOR THE TASK AT HAND

Resourcefulness is the key to success for any adventure traveller. Our **SUBGEAR** luggage and backpacks made travelling easy and our dive lights and knives prepared us for the unexpected as we explored the sea. Transporting gear across the beach, aboard the boat or around the world, **SUBGEAR** rolling bags, duffel bags and backpacks keep belongings safe and secure.

And **SUBGEAR** lights, knives, surface marker buoys and beach bags can always be relied upon to get the job done.

# BAGS

## XP PACK DUO

4.3kg, 48 x 80 x 38cm, 140l

Roller with comfortable telescopic handle

Quality 300D rip-stop fabric

## ECCO PACK

3.5kg, 45 x 80 x 38cm, 129l

Lightweight dive travel roller

Quality 300D rip-stop fabric

**SportDiver chose our Duffel Bag!**

„Duffel Bag: We like...Price, subtle looks, size, weight.”

*SportDiver Best Value in Gear Guide, issue August 2014, SportDiver, UK*

## DUFFLE BAG

760g, 75 x 35 x 30cm, 79l

For a full diving set

Soft neoprene pads on carrying handles

## WR-MULTI BAG

2.5kg, 90 x 40 x 40cm, 144l

Durable TPE tarpaulin

Back Pack straps and water drain plug

## BEACH BAG

For a complete snorkel set

Very useful and elegant

Compartments for keys, wallet, etc.

## BOAT MESH BAG

70 x 40 x 30cm, 84l

Lightweight and sturdy mesh bag

Large main compartment for gear

## NET SAC

66 x 39cm, Ø 80l

Lightweight and sturdy mesh backpack

Outside pocket and side handle

## REGULATOR BAG

35 x 26 x 10cm, 9l

Padded protection for regulators

Extra computer bag with security cord

## MARINIER DRY BAGS

Useful dry bags in 2 sizes

32 x 52 x 22cm, 10l & 43 x 65 x 28cm, 20l

Durable TPE tarpaulin fabric, padded back

## PROTECTION BAGS

For tablets, smart phones, 15" notebooks

Splash proof, padded protection

Easy operation thanks to clear plastic

# LIGHTS

## PROLIGHT SP30

Cree XM-L LED with a life cycle of 50.000h  
Anodized aluminium, overpressure valve  
>500 real lumen and 9000 lux@ 1m

## PROLIGHT XP

5W LED, extremely bright high performance  
Rugged aluminium housing  
Burn time 15-20h, waterproof up to 140m

## SECTOR 7

LED with real 700 lumens, burn time 30h  
Included 8 C Alkaline batteries  
100m waterproof, 1075g with batteries

## SECTOR 5

LED with real 550 lumens, burn time 24h  
Included 4 C Alkaline batteries  
100m waterproof, weight 650g with batteries

## LEAGUE 100

Very bright LED, 210 lumen  
Burning time up to 7h  
Ideal backup light, uses 4 AA batteries

## AMP 1L

Small light, usable as signal light too  
Burning time 72h  
Waterproof up to 100m, weights only 57g

## MERIDIAN LED

Personal locator light, visible over 1 mile  
White emergency strobe with 75h burn time  
Red locator beacon with 100h burn time

## STROBE LIGHTS

Bright signal flash in 3-4 second intervals  
Waterproof up to 40m  
LED version: integrated LED flashlight

## KNIVES

### SK-T

High-quality titanium, 13cm blade  
Anatomically formed handle  
With knife sheath

### SK-21

Stainless steel, 12cm blade  
Ergonomic handle with soft-touch  
With knife sheath

### SK-75

High-quality titanium, 7.5cm blade  
Attaches to almost every BCD  
With knife sheath

### SK-T POCKET

High-quality titanium, 7cm blade  
Attaches to BCD or belt  
With soft knife sheath

## BUOYS

### MARKER BUOYS

Marker buoy: Ø 45cm, holder for strobe light  
Surface buoy: 85cm, 5 D-rings, 3 handles  
Surface buoy also for freediving

### LIFT BAGS

HF welded and very sturdy, 25 and 50kg  
Air-bleed valve, duckbill inlet  
Also suitable as a marker buoy

### BUOYS

Safety Pro Buoy: 160cm  
Deco Buoy Deluxe: 130cm  
Deco Buoy: 130cm

### SAFETY & FUN

Security buoy and buoyancy vest  
Also suitable as snorkel vest  
Clearly visible due to hi-viz colours

## ACOUSTIC SIGNALS AND OTHER ACCESSORIES

### DIVE ALERT PLUS V2

Best safety signal to use above/below water  
Attaches to inflator hose, audible 1km

### SHAKER

High pitch sound underwater  
Attachment hook, magnetic stopper

### WHISTLE

Loud sound for above water  
Handy and effective

### TANK BANGER

Plastic ball as signaler  
Attachable to the tank

### FLASHY

Mini LED flash light with 3 CR1220 batteries  
Run time 12h, maximum depth 100m

### FIN HOLDER

Attaches fins and mask to BCD  
Convenient before and after the dive

### 3 HOSE HOLDER

For 3 hoses  
Rotates in all directions

### HOSE HOLDER

Available as 2 or 3 hose holder  
Rotates in all directions

### REEF HOOK

Relax, while floating in the current  
Metal karabiner, 1m line

### REELS

Multi-purpose reel: 50m  
Mini Reel: 30m or 15m

### RETRACTOR

Secure and comfortable attachment device  
1m retraction line great for compass, lamp, etc.

### SNAPPER

With plasticised steel line spiral  
Extendable to 1m or 1.90m

## MULTI TOOL

Conventional wrenches and screwdrivers  
Compact and multi-functional

## SLATES

Fluorescent slates for communication  
3-layer version with wrist attachment

## NITROX ANALYSER

Very precise nitrox measurement  
Exclusive warranty for sensors

## TRIMIX ANALYSER

Real helium analyses  
With highly sensitive sensors

## POCKET MASK

Emergency respirator mask  
With bacteria filter and hard case

## KEY CHAINS

O-ring tank: key chain with O-ring picker  
Fins: our popular Splitfin XP

## DRY BOX

21.5 x 15 x 11cm  
Ideal for camera or first aid kit

## MINI DRY BOXES

Mini-Dry: 7 x 10 x 1.5cm, waterproof  
Diver's Egg: Ø 6 x 11.5cm, waterproof

## HANGER SH1

Flexible hanger, ideal for neoprene suit  
55cm, blue

## HANGER SH2 & SH3

SH2: for gloves, boots, regulator, BC  
SH3: for regulator and BC

## SUIT HANGER

Extremely sturdy and universal  
Suitable for every kind of suit

## DRYSUIT HANGER

For easier drying and ventilation  
Suit cannot be deformed

# CARE ACCESSORIES

## CARE TIP

To guarantee a long life, even the best equipment needs regular care. We particularly recommend Mirazyme and Wet Suit Shampoo for your neoprene steamer and booties. The ecofriendly products will get rid of odors while cleaning and maintaining the neoprene. B.C. Life is a special cleaner that removes all organic residues and mold from the BCD bladder. An anti-fog product like our Sea Drops should also come along on any diving excursion.

## SUIT CARE

Ecofriendly cleaning/care products

Care for latex seals as well

Prevents and removes unpleasant odors

## ZIPPER CARE

Handy care products and wax stick

Free of paraffin and silicone

Enhances efficiency

## BCD CARE

Cleaner and renewer for the BCD bladder

Removes all organic residues

For a longer life

## MASKS CARE

Ecofriendly cleaning/care products

Effective anti-fog product

Best function and long life

## MAINTENANCE

Urethane adhesive for neoprene and BCDs

Special adhesive for seals

Iron-on neoprene repair fabric

## GEAR MARKER

Coloured markers for own equipment

No more confusion

Available in 5 colours

## EAR PROTECTION

Perfect protection with DOC's ProPlugs

Drops to prevent irritations

Drops to soothe inflammations

# TANKS ACCESSORIES

SUBGEAR OFFERS EVERYTHING YOU NEED FOR YOUR WORKSHOP

## DIN/INT ADAPTER

Converter for travelling

DIN and INT for 200bar version

DIN and INT for 300bar version

## CONNECTOR

Adapter DIN and T-connector

Adapter for additional 1. stage

Twin connection DIN G5/8, 200bar

## VALVE

Mono valve: DIN M 25 x 2

Second outlet: Mono valve expansion

EN144-1 tested

## PRESSURE TESTER

DIN 200bar, DIN300 bar, INT200 bar

Transfer hoses DIN and INT

With bleed screw

## OP VALVE

Adjustable, 3/8 inches

1st stages and argon regulators (dry suits)

For workshops/airgun

## TANK NET

Tank net for 10l, 12l, 15l tank

Protects tanks from scratches

Colors:   - short and long

## TANK HANDLE

Carrying handle with swivel joint

Extra sturdy and robust

For easier transport

## TANK

Steel tank with valve and boot

5l, 10l, 12l (short), 15l

Unique SUBGEAR design

You never know where your diving adventures will take you. This year, the **SUBGEAR** team trekked halfway around the globe to experience the exotic excitement that is South Africa. This diverse country's adventurous spirit and natural wonders provided the perfect backdrop for the presentation of our 2015 **SUBGEAR** line, and also proved to be characteristic of the performance, versatility, reliability and comfort that **SUBGEAR** products offer divers.

Our trip, and the resulting imagery in this catalog, represent everything that diving should be – and the true essence of the lifestyle that means so very much to all of us.

Love the water? Wish you could be in it every day? Now you can. Follow us.

@subgear

facebook.com/subgear

@subgear

**SUBGEAR's** dedication to divers is matched only by a commitment to protecting underwater fauna and flora. **SUBGEAR** is an active supporter of several organisations and projects. By supporting the preservation of underwater wildlife today, **SUBGEAR** is helping to ensure it is just beautiful for generations of water lovers to come.
